

HUMAN-GRADE INGREDIENTS CERTIFICATION

7th July 2025

At ESSENTIAL FOODS, our top priority is providing pets with high-quality, safe nutrition. We are deeply committed to maintaining the highest standards in kibble quality.

We recognise that crafting the finest kibble starts with sourcing only the highest quality ingredients. All of our fresh, chilled meats come exclusively from human-grade facilities, and whenever possible, we also procure dry ingredients from human-grade sources.

No matter the origin of our ingredients, ESSENTIAL FOODS takes pride in exceeding industry norms by managing and testing every delivery according to stringent human-grade quality standards. While this level of care is rare in the pet food manufacturing sector, it is this unwavering dedication to quality that sets our kibbles apart. We never compromise on quality, regardless of cost
