

SLOW-COOKED FRESH MEAT CERTIFICATION

21 September 2026

At ESSENTIAL FOODS we believe that how we cook our ingredients is just as important as the ingredients themselves. That's why our meat is gently slow-cooked at a carefully controlled temperature, helping us achieve the perfect balance between food safety, nutrition and taste.

Our gentle cooking process allows the meat to be cooked thoroughly while helping to preserve its natural flavour, texture and valuable nutrients. For pets, this means a food that is highly palatable, nutritious and made with quality animal protein at its heart.

We carefully control every stage of the process to ensure that our food meets stringent food safety and quality standards, giving pet owners confidence that every bowl contains carefully prepared, high-quality nutrition.

Gently cooked. Carefully controlled. Made with pets in mind.
